

## CORAL for Environmental and Energy Services (CORALCEES)

# ENVIRONMENTAL POLICY

### Purpose and Scope

CORAL for Environmental and Energy Services (CORALCEES) is an independent environmental and energy consultancy operating in Yemen. This Environmental Policy sets out the commitment of CORALCEES to managing the environmental aspects of its own operations and to integrating sound environmental and climate practice into the advisory services it provides to clients. This policy applies to all CORALCEES personnel, offices, and field activities across Yemen.

### Our Commitments

CORALCEES is committed to:

- Complying with applicable Yemeni environmental legislation, including the Environmental Protection Law No. 26 of 1995 and its implementing regulations, together with applicable international environmental and social performance standards, including the IFC Performance Standards and the World Bank Environmental and Social Framework.
- Preventing pollution and minimising the environmental impact of our own operations, including responsible management of energy use, water, materials, waste, and travel.
- Integrating environmental, climate, and sustainability considerations into the technical advisory, assessment, and reporting services we deliver to clients.
- Maintaining and continually improving an environmental management system aligned with the principles of ISO 14001:2015.
- Engaging openly and respectfully with the communities, authorities, and stakeholders affected by the projects on which we work.
- Setting, monitoring, and reviewing environmental objectives appropriate to the nature and scale of our activities.
- Ensuring that our personnel understand this policy and are competent to carry out their environmental responsibilities.

### Implementation and Review

Responsibility for the implementation of this policy rests with the Managing Director, supported by the management team. This policy is communicated to all personnel, made available to clients and interested parties on request, and reviewed at least annually to ensure its continuing suitability.

  
**Dr. Mohamed Amin Abdulkader Moghales**  
Managing Director  
CORAL for Environmental and Energy Services (CORALCEES)
